Overview:

25 years' experience directing projects in the Americas, Africa and Asia including 12 years split between Haiti and the Dominican Republic. Directed projects funded through USAID, World Bank and directly by host countries. Excellent managerial and team-building skills.

Significant Achievements

- Travelled to Port-au-Prince 24 hours after the earthquake. Reopened the PADF office and directed the operations for four months. Modernized and streamlined operations, accelerated all programs, developed new initiatives that led to doubling the annual programming.
 - Directed seven year cross-border cooperation program between Haiti and the Dominican Republic that resulted in significant increase in trade and was recognized by both governments. Final report was recognized as one of the best technical reports produced by PADF.
 - Developed community-based disaster management system that was later adapted by the Haitian government and the World Bank as the national model.
 - Obtained additional funding to expand nearly every program that I have directed in the last ten years.
-
